Letters of Transmittal

The Honourable Fred W. Johnson,
Lieutenant Governor,
Province of Saskatchewan

Sir:

I have the honour of submitting the annual report of the Department of Rural Development for the year ending March 31, 1984.

Respectfully submitted,

Louis A. Domotor

Louis A. Domotor,
Minister of Rural Development.

Honourable Louis A. Domotor
Minister of Rural Development

The Honourable Louis A. Domotor,
Minister of Rural Development,
Regina, Saskatchewan

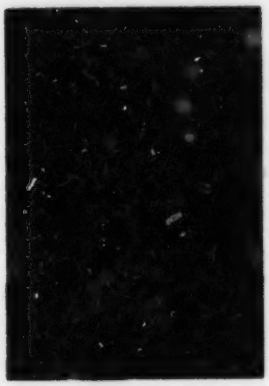
Sir:

I have the honour of submitting the annual report of the Department of Rural Development for the year ending March 31, 1984.

Respectfully submitted,

D. V. Gilewich

D. V. Gilewich,
Deputy Minister of Rural Development.



D. V. Gilewich,
Deputy Minister of Rural Development

Objectives

Primary Objectives

- To provide financial and technical services to rural municipalities through programs designated to improve the quality of life for rural residents;
- To ensure the strength of local government;
- To respond to the recommendations and directions as designated by the Saskatchewan Association of Rural Municipalities and rural residents.

Functions:

Designated Road Program

- To provide financial and technical assistance
- To ensure roadway standards
- To ensure traffic safety standards

Community Planning

- To assist rural municipalities with their community planning and resource management endeavours
- To encourage appropriate municipal land use and resource management practices within rural Saskatchewan
- To administer "The Planning and Development Act" through the process of reviewing development plans, zoning bylaws and subdivision proposals pertaining to Rural Municipalities
- To administer the Abandoned Railway Right-of-Way Land Use Program
- To represent Rural Development in the Environment Impact Assessment review process
- To review rural-urban annexation proposals from a Rural Development perspective

Municipal Management and Finance

- To provide an advisory and consultative service
- To draft proposed legislative amendments
- To provide statistical reports
- To review financial statements, budgets and accounting procedures

Revenue Sharing

- To provide funding through annual grants to rural municipalities to ensure fiscal viability

Planning and Research

- To provide road planning services
- To provide input for program and policy development to best serve the interests of rural municipalities
- To determine the unconditional revenue sharing funds to rural municipalities and organized hamlets
- To conduct departmental research on policies and programs affecting rural municipalities and rural residents
- To administer the traffic safety program that provides financial and technical assistance to rural municipalities

Bridge Program

- To provide financial and technical assistance for the construction and maintenance of bridge facilities
- To maintain an inventory of bridges and the condition of bridges in Rural Municipalities

Ferry Program

- To operate fifteen ferry crossings as part of traffic management and transportation access in the municipalities

Municipal Employees' Superannuation

- To administer a program which provides long term income security for participating employees and their dependents

Municipal Grants

Rural Revenue Sharing

Under the province's revenue sharing program, Saskatchewan Rural Development distributes annual grants to R.M.'s. In 1983-84 rural municipalities shared over $44 million for specific projects and locally determined programs.

Unconditional Grants

Grants totalling $15,956,260 were paid to rural municipalities on an unconditional basis according to the established formula.

Conditional Grants

Conditional grants for rural municipalities were paid out during the year under review for the following purposes:

Primary Grid	$ 8,096,160
Main Farm Access Roads	13,706,480
Bridges	2,781,710
Maintenance	1,384,740
Industrial Access Roads	340,520
Resort Roads	769,670
Traffic Safety	51,160
Traffic Counts	153,110
Regional Park Roads	504,720
Indian Access Roads	85,800
Timber Roads	61,660
Fire	211,220
Recreation	192,710
Total	**$26,339,660**

Inter-Municipal Programs

Municipalities which agree to offer common recreation and fire protection services to their residents are eligible for inter-municipal revenue sharing grants.

Two or more neighbouring municipalities may qualify through a formal agreement, and in some cases an association is necessary to administer the services. It is up to an individual municipality to initiate the agreement and to work out the terms and conditions.

Assistance for Construction of Roads in Indian Reserves

This program provides for the construction of designated roads on Indian Reserves. Under agreement with the Federal Government the Province recovers 80% of construction costs. Grants in the amount of $110,000 were paid during 1983-84.

Municipal Associations

A grant of $5,000 was paid to the Saskatchewan Association of Rural Municipalities and a grant of $1,000 was paid to the Rural Municipal Administrators' Association in support of their operations.

Drafting Services

The Drafting Services Branch of the Department of Rural Development provides cartography, graphics, drafting and technical services to all branches and districts of the Department; with map sales and services to outside agencies and the general public.

During the year under review, this branch prepared 3 original compiled plans for organized hamlet status. Early in the year, this program was transferred to C.S.M.A. 10 rural municipal zoning maps were drafted depicting land use criteria and 299 rural municipalities project maps were updated showing 1312 km of new construction. 75 rural inventory maps were revised from field notes which now completes over three quarters of the province to visual identity standards. The ever popular 1983 Saskatchewan Grid Road Map was revised and 60,000 copies were distributed free.

Department displays on programs and traffic safety were revitalized for the Farm Progress Show and Mexabition.

Board of Examiners

The Board of Examiners (Rural), appointed under the provisions of The Department of Rural Development Act, is responsible for the issuance of certificates of qualification to administrators of rural municipalities and to other qualifying individuals. The Board consists of one staff member of the Department who serves as chairman, one representative from the Saskatchewan Association of Rural Municipalities and one representative from the Rural Municipal Administrators' Association.

Type of Certificate	Number Issued — 1983-84
Rural Class "C"	20
Rural Class "A"	13
Rural "Superior A"	2

Municipal Employees' Superannuation Plan

Composition of Commission

The Commission administrating the provisions of The Municipal Employees' Superannuation Act is comprised of nine members:

- Chairman — Appointed by the Lieutenant Governor in Council
- Member representing Urban Employees — Appointed by the Minister of Rural Development
- Representative of Policemen and Firefighters — Appointed by the Minister of Rural Development
- Six other members named by their respective associations namely:
  - The Saskatchewan Urban Municipalities Association
  - The Saskatchewan School Trustees' Association
  - The Saskatchewan Association of Rural Municipalities
  - The Rural Municipal Administrators Association
  - The Association of School Business Officials
  - The Association of Community Colleges

Participants in Plan

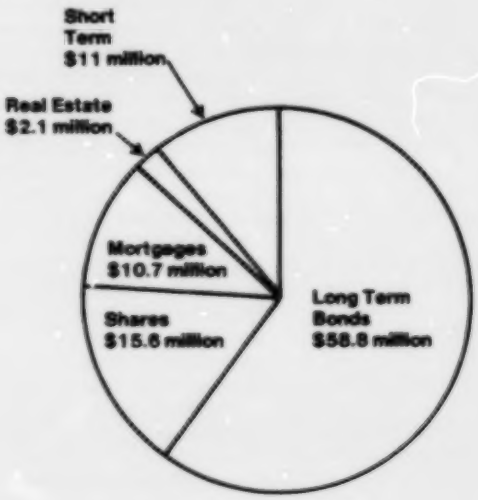
- Employer Members — (approximately 725)
  - some cities
  - towns and villages
  - rural municipalities
  - school divisions
  - community colleges
  - regional public libraries
  - various associations, e.g. SUMA, SARM, etc.
  - Municipal Hail Insurance Corporation
- Employee Members — (approximately 4,800)
  - city and town administrators
  - policemen and firefighters
  - rural municipal administrators
  - teacher aides
  - motor patrol operators
  - caretakers
  - clerical workers
- Comparative Statistics (Millions of Dollars)

	1983	1982	1981
Investment Holdings (Amortized Cost)	98.2	78.4	63.4
Contributions to Plan (Employee and Employer)	10.7	9.6	8.1
Superannuation Payments	1.89	1.48	1.01
Refunds, Transfers, and Estate Payments	.906	.885	1.002

Because the unit formula benefit plan which made it compulsory for municipal employees to contribute did not come into existence until July 1, 1973, the ratio of superannuated members to contributing members is very low. This being the case, the current pension costs are only a small percentage of current contributions.

Investment Portfolio as at December 31, 1983

(Total Value $98.2 Million)



Solvency

The Municipal Employees' Superannuation Plan is fully funded by contributing municipal employees and their employers; however, the Provincial Government pays all administration expenses incurred in the administration of The Municipal Employees' Superannuation Act. An actuarial study completed late in 1981 indicates that the fund is in excellent financial condition, having an accumulated surplus of approximately $5.5 million. Another such study will take place in early 1984 and it is expected that the new report will show an accumulated surplus of about $8.5 million, as at December 31, 1983.

Annual Report

The Municipal Employees' Superannuation Commission prepares its own annual report each year which reflects all the details of the plan's activities, and includes audited financial statements.

Community Planning Services

The Community Planning Services Branch assists the province's 299 rural municipalities in their community planning endeavours. These involve the preparation and adoption of development policies and the management of development proposals. The Planning and Development Act gives legal status to municipal development plans and zoning bylaws. Municipalities may co-operate with adjoining local governments in their community planning activities through district planning agreements.

At the end of the 1983-84 fiscal year there were:

- seventeen (17) inter-municipal planning districts.
- three (3) District Development Plans.
- two (2) rural municipalities with their own development plans.
- 140 rural local governments with zoning controls.

During 1983-84, the Branch assisted rural municipalities with such land use and resource management issues as agricultural land preservation and urban fringe and lakeshore development problems. In this regard there were:

- grants totalling $83,500 for planning assistance.
- sixteen (16) new zoning bylaws adopted.
- one hundred and three (103) zoning bylaws amended.
- thirty-two (32) rural municipalities in the process of adopting land use controls.
- one inter-municipal planning district development plan in the process of completion.

Administrative responsibilities of the Branch include The Planning and Development Act and The Municipal Expropriation Act, as they pertain to rural local governments. The Branch represents Saskatchewan Rural Development in the Environmental Impact Assessment review process. Liaison with Urban Affairs has been maintained with respect to the drafting of a new Planning and Development Act; municipal boundary alterations; inter-municipal and lake management planning; and the Qu'Appelle Valley planning program, through an inter-agency policy committee and regular referrals.

In liaising with other agencies, the Branch handled the Rural Development reviews with respect to:

- fifteen (15) Environmental Impact Assessments.
- eighteen (18) municipal boundary alterations.
- twenty-two (22) subdivision referrals from Urban Affairs.

Branch staff assists local advisory committees responsible for policies respecting the management and disposal of thirty-five (35) abandoned railway rights-of-way. A federal-provincial agreement was signed in 1983 to enable the final transfer of these lands to ultimate land users.

Statutory Branch subdivision reviews involved:

- 1,206 subdivision proposals received.
- 963 subdivision approvals issued.
- twenty-seven (27) subdivisions refused.
- sixty-nine (69) subdivision application files closed.
- twenty-five (25) subdivision re-approvals.
- 413 subdivision applications active.
- six municipal expropriations.
- fifteen (15) Public Reserve status changes.

The responsibilities of the Branch were carried out from offices in Regina and Saskatoon. Branch staff, including the Director, was comprised of four professional planners and eight non-professionals. To supplement the permanent staff, two planning technicians and one secretary were hired on a temporary basis.

In summary, rural municipal requirements for the Branch's programs continues to be significant, especially where urban fringe development activity is strong. The aggregate statutory workload increased somewhat in 1983-84, over the previous year, particularly with respect to subdivision approvals and zoning bylaw amendments, indicating continuing development activity within rural municipalities.

Planning and Research

During the year under review, the Planning and Research Branch was responsible for designating and co-ordinating road system planning for rural municipalities, conducting research into rural issues, development and transportation, distribution of unconditional revenue sharing funds and provided research, technical and financial assistance to rural municipalities to reduce the social and economic loss due to municipal traffic accidents.

Road Planning

During the 1983-84 fiscal year, applications for roadway changes totalled 1145 kilometres in 148 rural municipalities. These locations were examined and 275 kilometres of roadway were classified into various road assistance programs. The designated road system in 1983-84 consisted of 54 500 kilometres thereby committing the Government to funding approximately 1/3 of Saskatchewan's municipal road system. To facilitate road planning, traffic studies were carried out on 3 000 kilometres of road by our staff. Origin-destination, vehicle classification and speed studies were carried out at several locations.

Summer staff also conducted inventory in 75 rural municipalities to update our road inventory and planning maps.

The rural road inventory provides an essential information base of existing roads and standards, farm homes, industries, resort developments, etc. that is required in planning and assessing the roadway needs in each rural municipality. In addition, the road class information is one of the input factors in the calculation of the unconditional revenue sharing grant.

Under Branch supervision consulting engineers conducted traffic studies in 61 rural municipalities.

The traffic study data forms the basis for designating roadways eligible for provincial assistance, funding of grants and road design standards.

The traffic data is in regular demand by various government agencies and rural municipalities which rely on the data to establish their construction and maintenance priorities.

The Branch was responsible for setting up Timber Haul Road Maintenance agreements in nine rural municipalities whereby the Department of Rural Development pays 100 percent of the maintenance cost on the designated haul routes up to a maximum of 3.1¢/cord/km. The maintenance agreements compensate rural municipalities for overweight hauling of timber.

Research

In the fiscal year 1983-84, the focus of the research division was directed at ensuring department programs reflected the changing needs of rural municipalities.

Major research responsibilities included:

- Review and development of rural programs.
- On-going research into rural revenue sharing to ensure equitable distribution of conditional and unconditional funding.
- Research into municipal financing.
- Monitoring new developments in rural local government that included reviewing any legislation having an impact on rural municipalities.
- Preparing initiatives for departmental expansion.

Research studies undertaken during the year included:

- Annual mill rate survey.
- Analyzing organized hamlet grant structure.
- Project on timber haul roads.
- Analyzed cost of completing Grid road links.
- Historical analysis of rural municipal financing.
- Education tax and property taxation.
- Road costs affected by changes to the CROW and rail line abandonment.
- Documenting specifications for department micro-computers.
- Annexations and tax sharing agreements.
- Unconstructed Grids converted to Main Farm Access roads.

Revenue Sharing

The Branch was responsible for reviewing and updating the input into the equalization grant formula to ensure an equitable distribution of funds. The Branch determined the distribution of $15,239,031 unconditional revenue sharing funds to rural municipalities for the 1983-84 fiscal year.

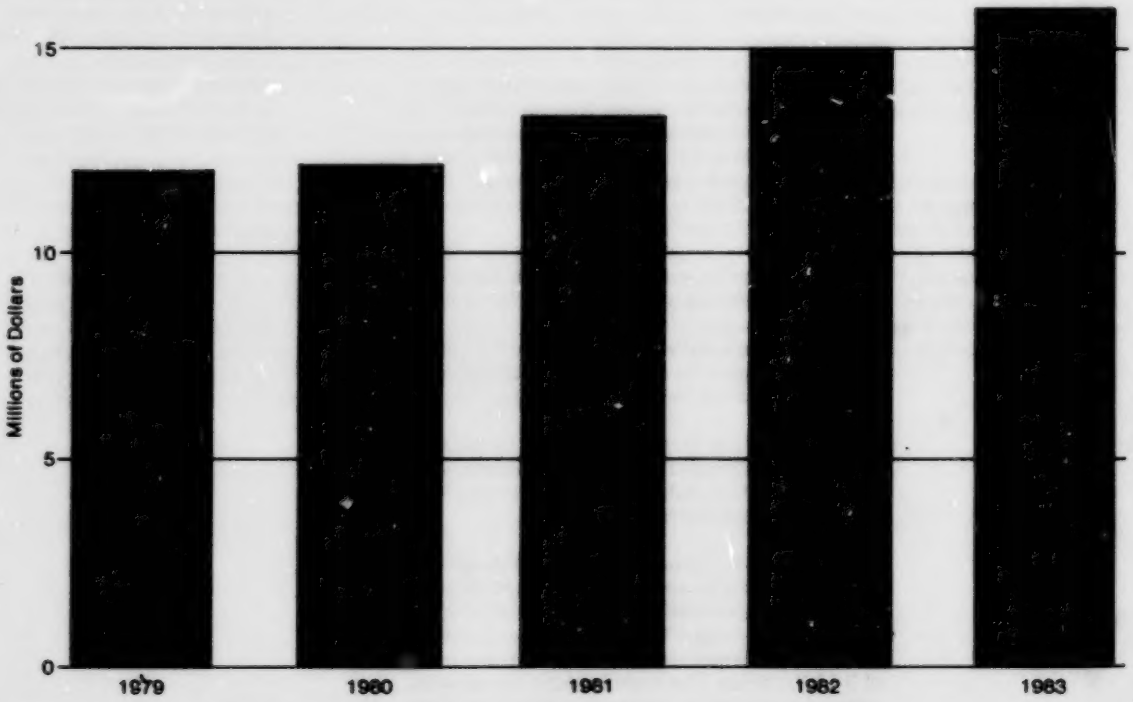
The Branch also determined the Main Farm Access construction assistance rate for each rural municipality. This rate forms the basis of provincial assistance for all our road programs.

The Branch was responsible for the distribution of the organized hamlet grants. For the 1983-84 fiscal year $700,683 was allocated to 143 hamlets.

The grant consisted of a base amount and a per capita grant to assist small communities in providing services.

Unconditional Revenue Sharing Grants

(Including Organized Hamlets)



Traffic Safety

An expanded Traffic Safety Program implemented in 1982 was well received by the municipalities. This program provides assistance to rural municipalities for traffic safety countermeasures which include signing, clearing of sight triangles, centreline striping and intersection improvements. During 1983-84, 76 rural municipalities participated in this program.

In co-operation with the Department of Highways and Transportation, centreline striping was carried out on 30 km of surfaced grid road in seven rural municipalities.

Through the "Traffic Accident Information System" this Branch, in conjunction with the district office staff, is able to monitor and analyze municipal road traffic accidents to identify and correct roadway deficiencies. Throughout the year, a number of recommendations were made to rural municipalities to improve potentially hazardous locations.

Year end accident information is forwarded to rural municipalities. This information enables rural municipalities to take corrective action and contribute to reducing the municipal accident rate and the economic loss. The economic loss due to property damage alone was $10.1 million in 1983.

The Branch staff calculated the 1983 accident rate for each rural municipality. A provincial accident rate map was prepared and copies were distributed to each municipality.

A high accident rate indicates to the municipality that safety improvements are required on their roadways.

The Branch set up a traffic safety display at Swift Current in conjunction with the S.G.I. Safety Fair. A display was also set up at the Regina Agribition and the Farm Progress Show. The display promoted Traffic Safety on the Municipal Road System.

During the past two years, there has been a significant reduction in the number of accidents, fatalities and injuries on the municipal road system. These reductions can be partly attributed to the Traffic Safety Program.

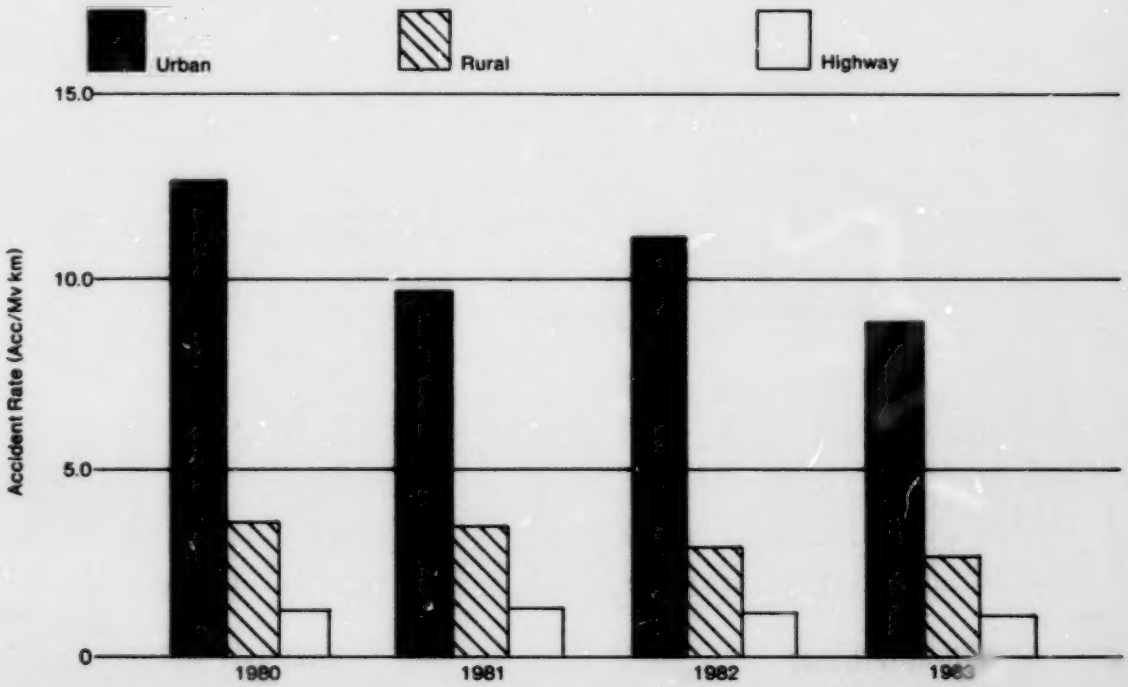
Signing

The Branch is responsible for developing and monitoring sign standards and specifications to ensure that municipal signing conforms to the Canadian standards. New signs, signing techniques and materials are evaluated and adopted for use on the municipal road system.

Railway Crossing Signalization

This Branch co-ordinated the site inspections of eleven municipal road-railway crossing locations to determine the need for automatic signal protection. The Canadian Transport Commission has approved six locations for signalization and five were turned down during 1983-84.

Trends in Accident Rate by Road System



Rural Municipal Roads — 1983

Severity of Accidents by Month

Month	Number of Cases: Property Damage	Number of Cases: Personal Injury	Number of Cases: Fatal	Total	Number of Victims: Injured	Number of Victims: Killed	Single Vehicle Accidents	Estimated Damage

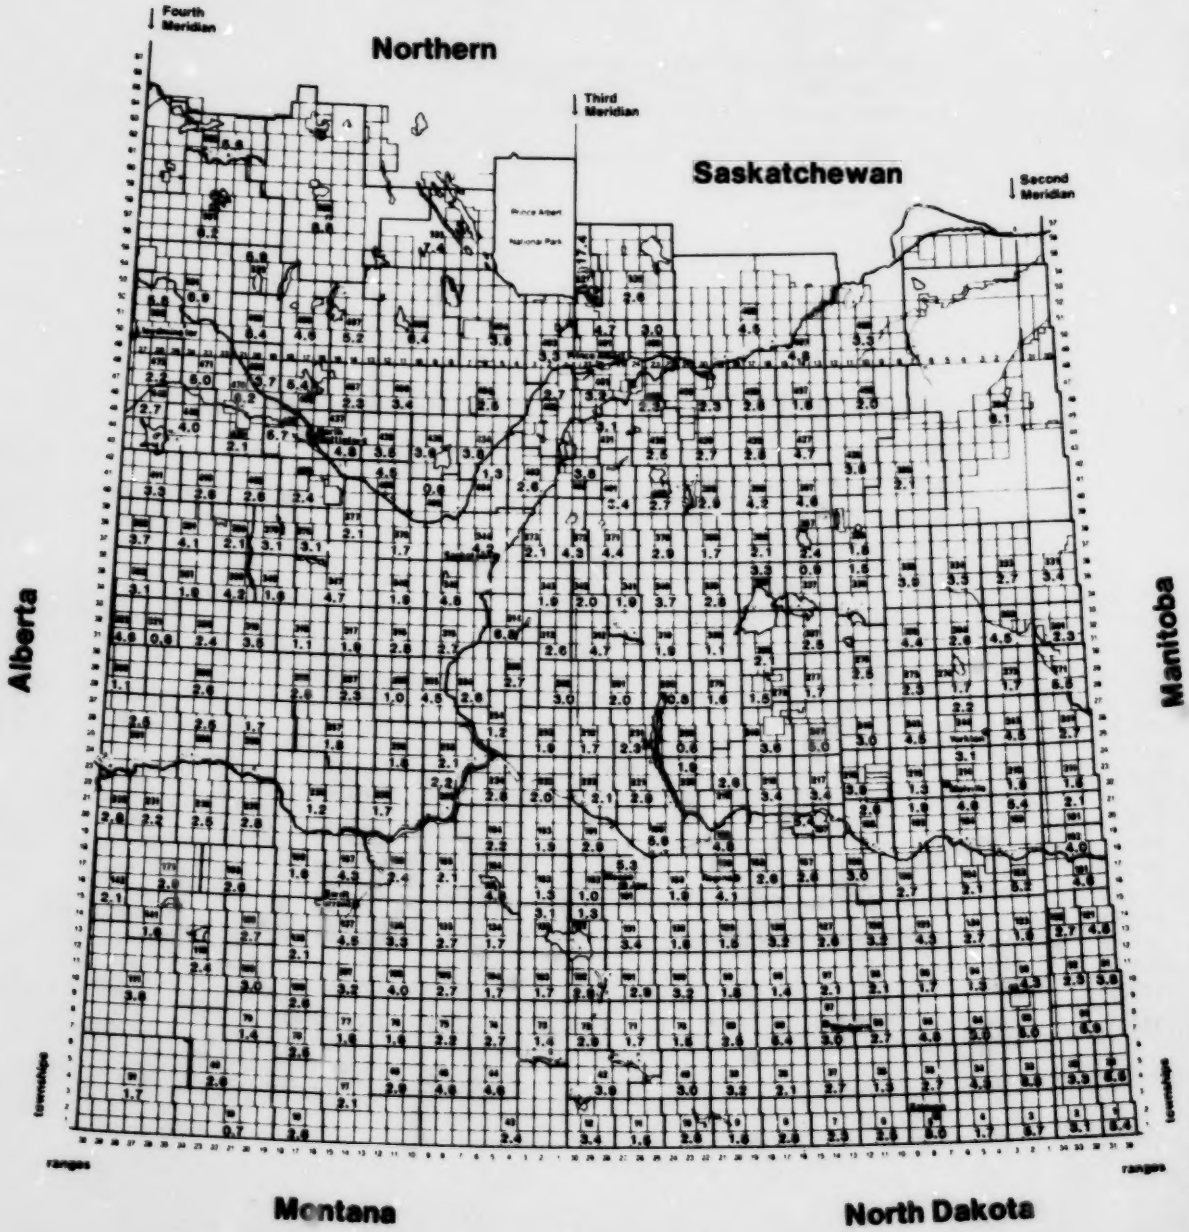
Medium (2.0-4.0)
High (4.0-6.0)
Very High (over 6.0)



Ferry Services

Fifteen cable ferries were in operation during the 1983 ferry season, ten on the South Saskatchewan River, four on the North Saskatchewan River and one on the Saskatchewan River.

Ferry service commenced on the South Saskatchewan River at the Lemsford Ferry crossing and Lancer Ferry crossing on April 8 and on the North Saskatchewan River at the Lloydminster Ferry crossing on April 20. On April 21, ferry service commenced at the Riverhurst Ferry crossing and continued until December 10. The Riverhurst Ferry operates across Lake Diefenbaker. The Cumberland House Ferry crossing, located on the Saskatchewan River, commenced service on April 26 and continued until November 24.

A ferry maintenance crew of seven was employed during the year to carry out all necessary construction and maintenance programs.

The total cost of operations, maintenance and improvements ending March 31, 1984, was $1,561,206.63.

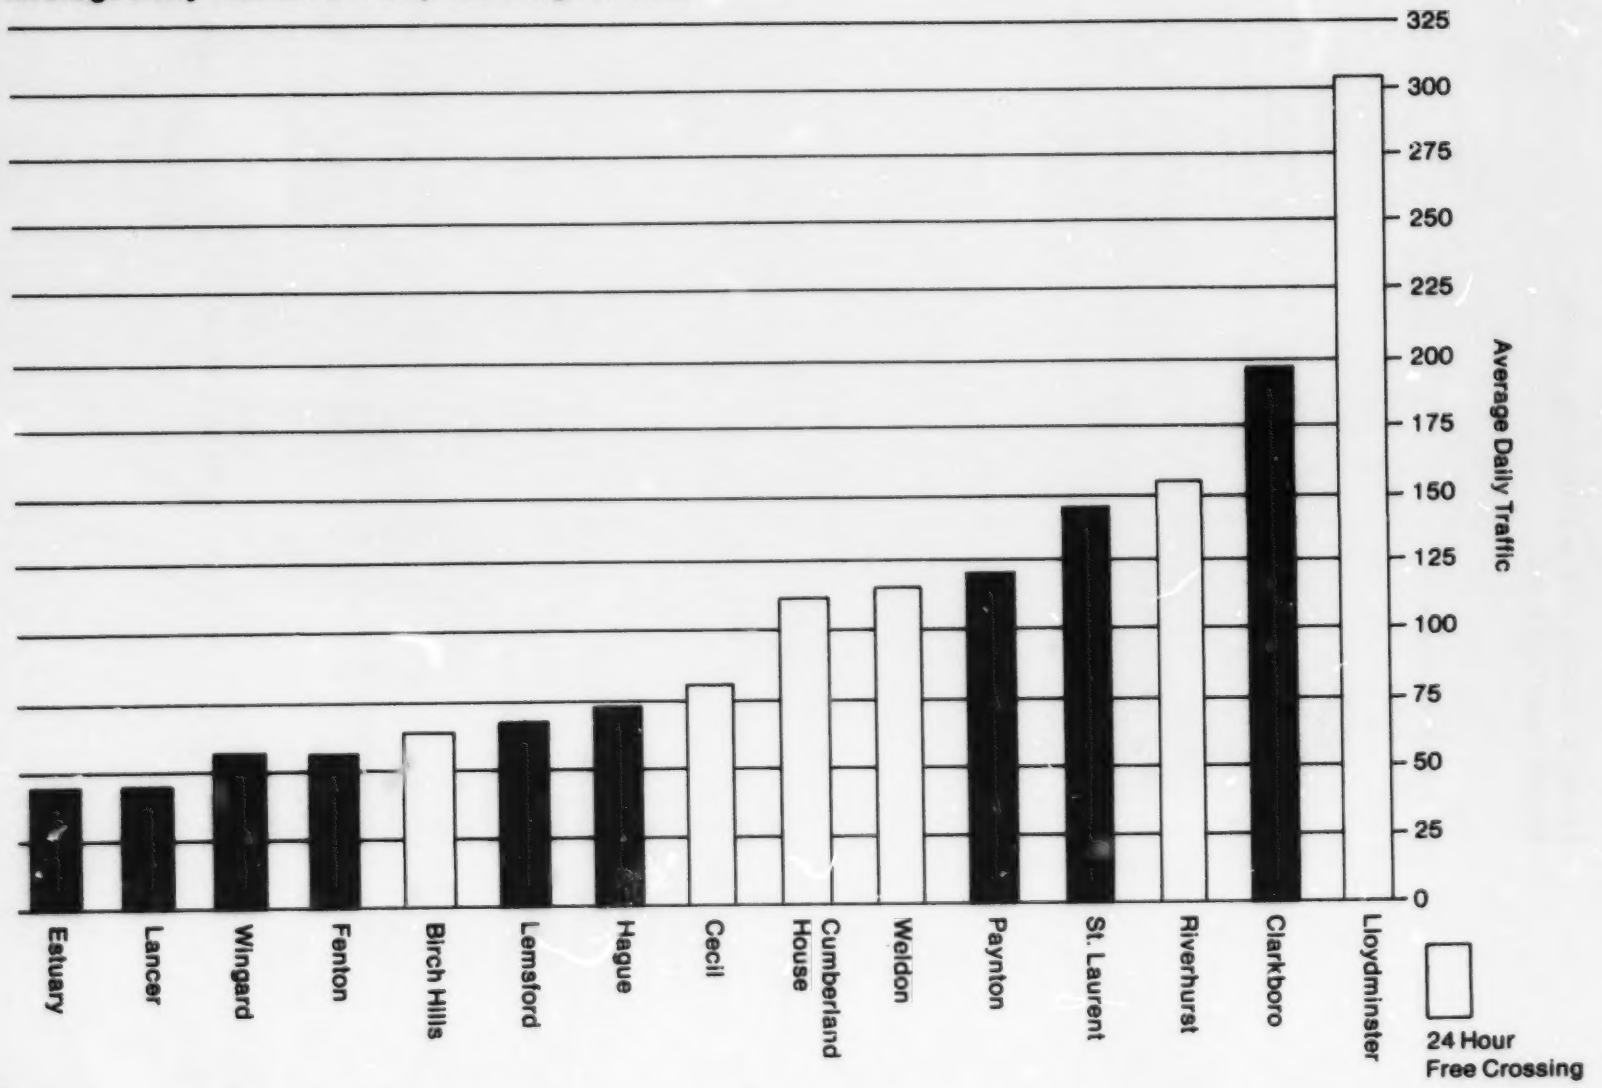
Average Daily Traffic For Ferry Crossings (1983)



Bridge Services

The Bridge Services Branch administers a program under which financial and technical assistance is provided to rural municipalities for the construction and repair of municipal bridges under their jurisdiction.

Technical assistance consists of carrying out inspections, engineering designs, determining load carrying capacities and providing recommendations on bridge problems.

Financial assistance is provided at rates varying from 20% to 80% for bridges from 6 m to 30 m in length. For bridges greater than 30 m in length, financial assistance at the rate of 100% is provided on bridge construction and repair costs.

During the 1983-84 fiscal year, project expenditures totalled 2.8 million. Financial assistance was provided to 80 rural municipalities on 125 projects. Approximately 79% of the total bridge expenditures were made for bridge projects on designated roads, such as primary grid, grid and main farm access roads. These projects were given priority because of the greater traffic volumes served and also to co-ordinate the bridge construction with the new road construction.

The replacement of larger substandard bridges was again given considerable emphasis as approximately 51% of the total expenditures were made on larger bridge projects with the Department paying 100% of the costs for these projects.

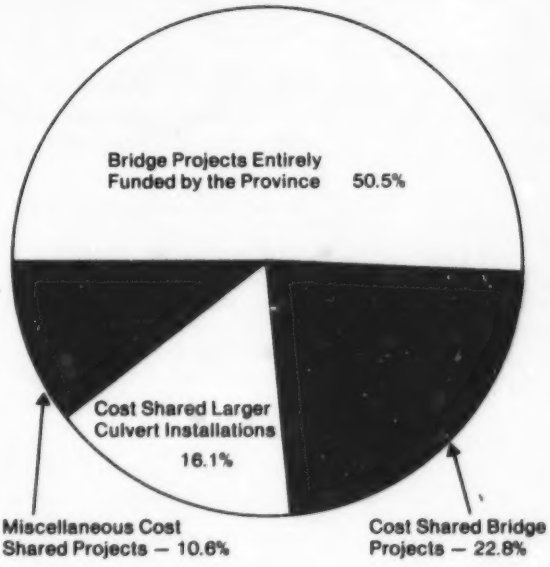
Under the direction of the Bridge Services Branch, construction and repair for the majority of municipal bridges was carried out by the bridge construction crews of Saskatchewan Highways. Culvert installations were carried out either with municipal equipment or by road construction contractors.

Because of the present economic advantage, the use of corrugated steel culverts in lieu of smaller bridges continued to be a popular choice, particularly in view of the new corrugation profiles that are available for helical corrugated steel culverts.

During the 1983-84 fiscal year, approximately 165 bridge inspections were carried out by the branch, with corresponding reports and recommendations being forwarded to the municipalities. In addition to the design of new drainage structures, work also included making arrangements to have new bridges constructed.

The bridge projects receiving financial assistance during the 1983-84 fiscal year are summarized as follows:

Bridge Program Expenditures 1983-84



Bridge Projects Entirely Funded by the Province 50.5%
Cost Shared Larger Culvert Installations 16.1%
Miscellaneous Cost Shared Projects — 10.6%
Cost Shared Bridge Projects — 22.8%

Summary of Bridge Program

Construction — Larger Bridges (100% Funded)

Rural Municipality	Location	Description
Maryfield No. 91	On a main farm access road, northwest of Maryfield over the Pipestone Creek.	3 span bridge, 36 m long, precast concrete superstructure.
Glen Bain No. 105	On a main farm access road north of Glen Bain over the Notukeu Creek.	3 span bridge, 36 m long, precast concrete superstructure.
Pense No. 160	On a resort road, northwest of Belle Plaine over Moose Jaw Creek.	3 span bridge, 45 m long, precast concrete superstructure.
Clayton No. 333	On a primary grid road, southwest of Swan Plain over the Swan River.	3 span bridge, 39 m long, precast concrete superstructure.
Hudson Bay No. 394	On a main farm access road, northeast of Erwood over the Red Deer River.	5 span bridge, 90 m long, precast concrete superstructure.

Total = 5 Larger Bridges

Construction — Standard Pile Bridges

Spans and Total Length	No. of Projects
1 span, 6 metres	1
1 span, 12 metres	4
1 span, 15 metres	1
3 spans, 18 metres	2
3 spans, 30 metres	2
Total — Standard Pile Bridges =	**10**

Bridge Maintenance Projects

Total Length	No. of Projects
6 metres	12
12 metres	9
18 metres	6
24 metres	4
27 metres	1
30 metres	4
36 metres	1
43 metres	1
76 metres	1
Total Repair Projects =	**39**

Construction — Larger Corrugated Steel Culverts

Culvert Diameter	No. of Projects
2000 mm	1
2200 mm	4
2400 mm	6
2700 mm	6
3000 mm	8
3360 mm	2
3990 mm	1
Total — Large Culverts =	**28**

Miscellaneous Bridge Projects

Description	No. of Projects
Small Culverts in lieu of bridges	16
Low Level Crossings	7
Bridge Widening	2
Riprap Installation	2
Channel Improvements	1
Pave Decks	3
Total Miscellaneous Projects =	**31**

Financial assistance was also provided on the remaining costs for 12 projects previously undertaken.

Road Services

The Road Services Branch consists of a Director and three Regional Engineers located in Regina, with six district offices located throughout the province. The Regional Engineers supervise the south region consisting of the Swift Current and Weyburn districts, the north-east region made up of the Yorkton and Prince Albert districts, with the Saskatoon and North Battleford districts making up the north-west region.

The Road Services Branch of the Department of Rural Development provides technical and financial assistance to municipalities for the construction, oil surfacing and maintenance of designated roads according to program eligibility.

The designated road programs administered by the branch include the following:

Grid Roads — this program, consisting of an all-weather road system of inter-connecting municipal roads, initially began in 1956 with 19 000 km and later expanded to 26 000 km. Although construction was completed by April, 1976, maintenance assistance is provided.

Primary Grid Roads — this program began officially in 1977 and consists of 8 600 km of the more important grid and main farm access roads. Construction and oil surfacing assistance are available for all primary grid roads.

Main Farm Access Roads — this program of 30 000 km began in 1967 as a secondary grid system to provide all-weather access roads to as many farm sites as possible.

Regional Park Roads — designated roads to regional parks are eligible for construction and oil surfacing assistance.

Oil and Industrial Access Roads — this program provides assistance for those roads carrying a large amount of traffic, associated with the oil or other industries.

Resort Roads — this program provides assistance for roads that carry a substantial amount of tourist traffic, particularly during the summer months.

Indian Reserve Access Roads — this program began in 1979 and provides assistance for construction of access roads to Indian Reserves.

Indian Reserve Roads — this program involves designated roads on Indian Reserves. Construction costs are shared between the federal and provincial governments.

Engineering services are available through six district offices located in North Battleford, Saskatoon, Prince Albert, Yorkton, Weyburn and Swift Current.

Design and Engineering

The district engineering staff of the Department carried out alignment surveys, drainage, special and related construction surveys in 242 rural municipalities and 11 urban municipalities. Complete road designs and construction engineering were provided on 17.2 km in 9 rural and urban municipalities.

A total of 1 357.0 km of road designs were submitted by consulting engineers to district offices for checking and approval by our staff.

Construction

During this season, 213 rural municipalities and 7 urban municipalities constructed a total of 1 309.0 equivalent km of designated roads. This total is made up of 434.5 km of primary grid, 816.0 km of main farm access, 7.7 km of regional park, 33.5 km of resort, 14.3 km of industrial access and 3.0 km of Indian Reserve access roads.

The excavation price of projects tendered in 1983 varied from a low of 64¢/m^3 in the Swift Current district to a high of $1.30/$m^3$ in the Prince Albert district, with a provincial average of 79.6¢/m^3. The average cost of construction on roads built to a main farm access standard was $15,200.00/km and the average cost of construction for primary grid roads was $18,500.00/km.

The average cost of construction contracts tendered in 1983 amounted to approximately $70,000 per contract.

The 1983 construction season experienced a marked increase in the installation of large corrugated steel culverts throughout the province. Due to the increased cost of timber bridges as compared to steel culverts, the Department has recommended the installation of large steel culverts as drainage structures where economically and structurally feasible. The district staff, in 1983, surveyed, completed preliminary designs and supervised the installation of steel culverts on 44 sites. In all cases, these steel culverts replaced timber pile bridge structures. The sizes of steel culverts varied from 1800 mm to 3990 mm.

In the Prince Albert district, the Department has successfully used steel culverts as drainage ditch drop structures, where the municipalities anticipate experiencing serious ditch erosion. Six drop structures were successfully installed during the construction season and are operating successfully in reducing erosion.

Reconstruction

During the 1983 season, 97 R.M.s and 3 urban municipalities reconstructed the equivalent of 230.8 km of the designated road system. This reconstruction is made up of 206.3 km of grid, 13.8 km of main farm access, 8.7 km of resort road, 1.8 km of regional park road and 0.2 km of industrial access road.

Oil Surfacing

51.6 km of oil surfacing were completed under the primary grid and regional park programs. 21 R.M.s and 9 urban municipalities participated in the two programs.

The cost of oil surfacing in 1983 averaged $26,200.00/km.

In the Yorkton district, the oil surfacing program was highlighted by the asphalt surfacing of 7.7 km of primary grid, industrial access road in the Rural Municipality of Spy Hill No. 152, between the Village of Spy Hill and the local potash mine. This project was unique to the rural oil surfacing program in that this primary grid industrial access road was constructed and surfaced in the same construction season. Due to extreme sandy conditions and lack of suitable surface stabilizing materials, this procedure was the most economical solution to the problems confronting the rural municipality. The total cost of the project was $318,500 or $41,100/km.

Oil Surfacing Maintenance

In 1983, 985.2 km of oil surfaced roads were eligible for oil surfacing maintenance assistance. The Department assisted 55 rural and urban municipalities on oil surfacing maintenance costs of $1,631,100.00 at a rate of 50%.

Regular Maintenance

In 1983, 21 506.1 km of road were eligible to receive normal maintenance assistance of $60/km and 2 889.5 km were eligible to receive $70/km for extra maintenance. These constructed roads in the grid, primary grid, regional park, resort and industrial access programs all qualify for this assistance. In all, 298 R.M.s and 169 urban municipalities were eligible for assistance under this program.

Roads on Indian Reserves

The Department assisted one Indian Reserve on the construction of 3.4 km of main farm access and 3 Indian Reserves on the reconstruction of 11.3 km of grid road and 0.9 km of main farm access. Regular maintenance assistance is available at $60/km on 301 km and 72 km were eligible for extra assistance at $70/km in 47 Indian Reserves.

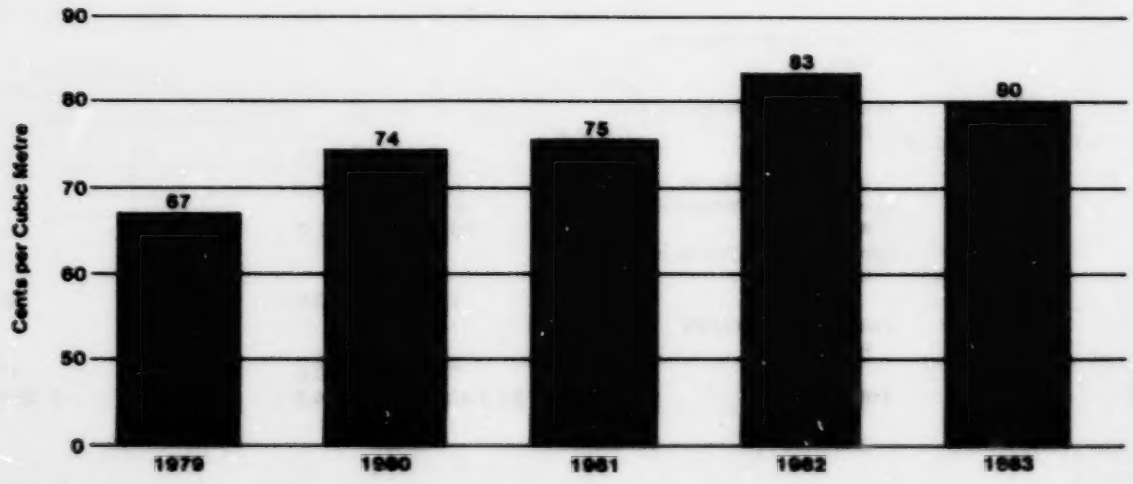
Average Annual Cost of Excavation (Tendered Contracts)



Rural Development 1983 Grant Structure For Designated Roads

Type of Road	Construction	Extra Assistance	Maintenance Assistance	Reconstruction Assistance	Oil Surfacing Assistance	Remarks
Grid	Grid construction program discontinued as of April 1, 1976.	N/A	Maximum of $80.00 per km divided between surfaced maintenance and right-of-way maintenance. Maximum of $70 per km on designated locations where traffic volume exceeds 150 v.p.d. Maintenance grants paid on basis of field reports. Accounts not required.	Basic main farm access percentage. Extra 15% on costs over $9,000 per km. Grant earned forms part of construction allocation for designated roads.	N/A	
Main Farm Access	Basic main farm access percentage. Based on equalization grant formulae. Varies from 40% to 60%.	Normal main farm access percentage. (a) Extra 15% on costs over $3,000 per km. (b) Extra 10% on costs over $6,000 per km.	N/A	Basic main farm access percentage. Extra 15% on costs over $9,000 per km. Grant earned forms part of construction allocation for designated roads.	N/A	Basic percentage may vary from year to year.
Primary Grid	Varies from 50% to 70%. Main farm access percentage for individual municipality, plus 10% for construction to full primary grid standards. Main farm access percentage for individual municipality for construction to partial primary grid standards.	Extra 15% on costs over $9,000 per km for construction to full primary grid standards.	For subgrade and right-of-way maintenance, it is the same as 'Grid'. 50% assistance for oil surface maintenance.	(Same as under 'Construction' and 'Extra Assistance').	(Same as under 'Construction' and 'Extra Assistance').	
Roads on Indian Reserves	Rural Development pays 100% of initial construction and gravel. Province reimbursed 80%. Applies to main farm access, primary grid and resort.	N/A	For sub-grade and right-of-way maintenance, it is the same as 'Grid'. 50% assistance for oil surface maintenance on primary grid. Recommend I.R. co-operate with R.M. for oil surfacing maintenance.	(Same as under 'Construction').	Primary grid only. (Same as R.M.)	Construction grants earned form part of M.F.A. and primary grid road program allocation.
Indian Reserve Access	Rural Development pays 80% of initial construction and gravel.	N/A	N/A	N/A	N/A	Construction grants earned form part of M.F.A. and primary grid road program allocation.
Industrial Access (Includes Oil Access)	Basic main farm access percentage.	(a) Plus 20%. (b) Extra 15% on costs over $3,000 per km. (c) Extra 10% on costs over $6,000 per km. (d) Maximum Rural Development share 80%.	(Same as Grid)	Basic main farm access percentage, plus 20%. Extra 15% on costs over $9,000 per km. Maximum Rural Development share 80%.	N/A	Grant earned does not form part of M.F.A. and primary grid road program allocation.

Rural Development 1983 Grant Structure For Designated Roads

Type of Road	Construction	Extra Assistance	Maintenance Assistance	Reconstruction Assistance	Oil Surfacing Assistance	Remarks
Resort	Basic main farm access percentage.	(a) Plus 15%. (b) Extra 15% on costs over $3,000 per km. (c) Extra 10% on costs over $6,000 per km. (d) Maximum Rural Development share 90%.	(Same as Grid)	Basic main farm access percentage plus 15%. Extra 15% on costs over $9,000 per km. Maximum Rural Development share 90%.	N/A	Construction grants earned form part of M.F.A. and primary grid road program allocation.
Regional Park Access	Basic main farm access percentage.	(a) Plus 30%. (b) Extra 15% on costs over $3,000 per km. (c) Extra 10% on costs over $6,000 per km. (d) Maximum Rural Development share 90%.	(Same as Grid for sub-grade and right-of-way). 50% assistance for the maintenance of oil surface.	Basic main farm access percentage plus 30%. Extra 15% on costs over $9,000 per km. Maximum Rural Development share 90%.	(Same as under 'Construction' and 'Extra Assistance').	Construction grants earned form part of M.F.A. and primary grid road program allocation.
Towns and Villages	70% assistance for all designated roads.	N/A	(Same as Grid) No assistance for M.F.A.	(Same as under 'Construction').	Primary grid and regional park access only. (Same as under 'Construction'). Recommend towns and villages co-operate with R.M. for oil surfacing maintenance.	
Bridges	(a) Bridges over 30.5 metres in length: 100%. (b) Bridges 6.1 metres to 30.5 metres in length: Standard bridge assistance rate from 20% to 80% determined from formula based on number of bridge units and assessment. (e.g.) 20% – assess. of $384,000/unit or greater. For bridges on designated roads, assistance at the higher of standard bridge rate or appropriate main farm access rate, plus 10% for bridges on primary grid.	N/A	(a) Bridges over 30.5 metres in length: 100%. (b) Bridges 6.1 metres to 30.5 metres in length: R.M. pays first $200.00. Assistance on balance of costs at standard bridge assistance rate. For bridges on designated roads, assistance at the higher of the standard bridge rate or appropriate main farm access rate, plus 10% for bridges on primary grid.	N/A	N/A	Grant earned does not form part of construction allocation for designated roads. Bridges 24.4 metres to 30.5 metres are eligible for extra construction assistance.

Municipal Management and Finance

The main function of the Branch is to provide consultative and review services to elected and appointed rural municipal officials in all aspects of municipal law, administration and accounting.

These services are provided by mail, telephone and during periodic visits to municipal offices, during which time municipal records are inspected. Specific problems and alleged improper conduct of municipal operations are investigated. A report on each visit is subsequently prepared for submission to the Minister and to the Reeve of the rural municipality. The report indicates any deficiencies and recommends remedial procedures to improve municipal administration.

During the year, detailed reviews of the records maintained by twenty municipal administrators applying for a Class "A" or Superior "A" Certificate of Qualification were conducted for the Board of Examiners. Members of the branch also conducted 106 routine reviews of municipal records and made 104 advisory calls at municipal offices. Fifty-five special interviews were conducted with municipal officials and forty-three council meetings were attended. Staff members expended fifty-two days attending conventions of the S.A.R.M. and the R.M.A.A.

Grants totalling $71,400 to municipalities for twenty trainees enrolled in The Municipal On-The-Job Training Program were processed as were the municipal bylaws and tax cancellations submitted for Ministerial Approval. Fidelity bonds for all rural municipal treasurers were monitored. The Supervisor of Boundaries processed Orders for six Organized Hamlets.

Where rural municipalities are unable to obtain the services of qualified administrators, the branch reviews each application and makes recommendations concerning the issue of permits to those rural municipalities employing unqualified persons as administrators.

Annual financial statements, submitted by municipal auditors, and other financial reports for all 299 rural municipalities are monitored to evaluate financial strength, identify statutory and administrative deficiencies and determine where assistance is required to ensure adequate financing of municipal programs. Information obtained from these sources is compiled for report to Statistics Canada.

The following statistical schedules have been prepared from the information contained in the 1982 financial statements of rural municipalities.

Balance Sheet of the Revenue Funds (In Dollars) Rural Municipalities of Saskatchewan

Assets

	1982	1981	1977
Cash	28,875,848	27,094,066	16,166,004

Reserves	7,128,759	6,361,239	3,819,247
Net Surplus	39,533,945	36,851,996	28,337,340
Totals	**68,085,343**	**64,002,142**	**45,962,659**

Assets and Liabilities

The liquid financial position, which indicates the ability to meet current financial obligations of the revenue fund was strengthened during the year. Two hundred and five rural municipalities had an operating surplus for the year and the operation of ninety-four rural municipalities resulted in a deficit. Reserves and surpluses continue to be maintained at an adequate level.

Saskatchewan Rural Development appreciates the continued co-operation and assistance received from local authorities, including the appointed municipal administrators in dealing with municipal problems and supplying information for this segment of the annual report.
